Application Instructions and Guidelines

Program is offered from May 24 to September 30, 2021 or until funds are exhausted.

Incentive values and measures may be modified or terminated at any time without prior notice.

Follow This Easy Process

STEP 1

Verify Your Eligibility

- Applicant must verify that they are a business customer of PSE&G.
- Project must include a facility improvement that results in an upgrade to electric or gas energy efficiency (kWh or therms) and/or a permanent reduction in electric or gas energy usage.
- All equipment must be installed in facilities served by PSE&G, with a valid PSE&G account number on an eligible PSE&G non-residential rate.
- See the Resources page at BizSave.PSE&G.com

STEP 2

Submit Your Application to Reserve Funds

There are several ways to do this.

Submit application online at:
BizSave.PSE&G.com

Email completed application to:
PSEnergysaver@dnv.com

Fax completed application to:
833-249-7734

- Incentive funds will be reserved when your application is approved.
- Complete customer and facility information sections on this application.
- Complete the measure worksheets in this application for each measure that you are installing.
- For some projects, a pre-installation inspection will be required. Most projects require documentation of the equipment being replaced.
- Incentive funds are reserved for 90 days. Contact the PSE&G Business Energy Saver Program team for specific questions regarding funding reservations and extensions.

STEP 3

Install Equipment or Perform Project Work

- The equipment installed must meet or exceed the specifications and requirements found in the measures tables and detailed in the Program Measure Catalog. Equipment must be installed within the program period.

STEP 4

Submit Final Application

- Submit a Final Application within 60 days of project completion, but no later than September 30, 2021. Include the following documentation with your Final Application: Customer/contractor information, facility information, a signed Final Application, itemized invoices, specifications and an updated scope of work.
- The program team will review your Final Application. For some projects, a final inspection will be part of the final review.
- The program team will send incentive checks four to six weeks after your Final Application is approved.

Have questions? Contact the program team at 844-300-PSE&G (7734).

Incentive Application Checklist

Pre Application

- ☐ Incentive application completed
- ☐ PSE&G account # or copy of current PSE&G bill
- ☐ Documentation of existing equipment such as photos, inventories, etc.
- ☐ New Equipment Specifications/Cut Sheets
- ☐ Scope of Work

Final Application

- ☐ Signed Final Application agreement
- ☐ Documentation of new and existing equipment such as photos, inventories, etc.
- ☐ Equipment Specifications/Cut Sheets (if scope has changed)
- ☐ Itemized invoice
- ☐ New Scope of Work (if necessary)

Effected by Hurricane Ida

☐ I certify that I am a PSE&G gas or a PSE&G electric Customer (or both) and that I have experienced damage caused by Hurricane Ida and I am requesting a PSE&G enhanced incentive to replace equipment damaged by Hurricane Ida. I also certify that these incentives, in conjunction with any other incentives, FEMA or Homeowner's insurance payments that I have received relating to the equipment to be replaced, will not exceed the total cost of the equipment.

On-Bill Repayment Program

Would you like to apply for the On-Bill Repayment (OBR) Program? ☐ Yes ☐ No
Get answers to [frequently asked questions](#) about the OBR program.

Are you the ☐ Owner ☐ Renter?

Will you be designating the On-Bill Repayment funds to the Approved Trade Ally? ☐ Yes ☐ No

FINAL APPLICATION AGREEMENT

Important: Please read the Policies and Procedures before signing and submitting this Final Application. You must complete all information and provide required additional documentation to avoid processing delays.

Completion Notice And Final Incentive Request

Name of Applicant's Business	Application Number (In Reservation Letter)	Estimated Incentives - Requested		
Mailing Address	City	State	Zip	
Print Name/Title	Date	Actual Completion Date		
Customer Signature (PSE&G Customer)	Customer Email (PSE&G Customer) - Required	Total Project Cost		

SIGNATURE ABOVE INDICATES CUSTOMER HAS READ AND AGREES TO FINAL CUSTOMER ACKNOWLEDGMENT ON THE NEXT PAGE. CUSTOMER SHOULD SIGN AND SUBMIT ONLY AFTER ALL EQUIPMENT HAS BEEN INSTALLED. A CUSTOMER SIGNATURE IS REQUIRED FOR PAYMENT. SIGNED APPLICATIONS RECEIVED BY FAX OR EMAIL WILL BE TREATED THE SAME AS ORIGINAL APPLICATIONS RECEIVED BY MAIL.

PAYMENT RELEASE AUTHORIZATION (OPTIONAL)

Customers may assign program incentive payments to an approved Trade Ally. Complete this section ONLY if incentive payment is to be paid to entities other than the PSE&G account holder listed on the Applicant Information page.

I am authorizing the payment of the incentive to the third party named below and I understand that I will not be receiving the incentive payment from PSE&G. I also understand that my release of the payment to a third party does not exempt me from the program requirements outlined in the measure specifications and Terms & Conditions.

Customer Signature (PSE&G CUSTOMER)	Print Name/Title	Date

Check should be made payable to:

Payee 1: Company/Individual Name	Incentive Amount		
Mailing Address	City	State	ZIP
Payee Phone Number	Payee Email		
Payee EIN/Federal Tax ID or SSN	Payee Tax Status		

Final Customer Acknowledgment

As an eligible PSE&G non-residential customer, I certify that work was completed on this project on or after May 24, 2021. The energy efficiency measures are for use in my non-residential facility and not for resale. Project documentation, including product specification sheets, and copies of dated invoices for the purchase and installation of the measures, is attached. I have attached any other documentation requirements as detailed in the Program Specification Document, or requested of me by the program team. Final applications and all documentation must be received by September 30, 2021, to be considered for the current program period.

I understand that the location or business name on the invoice must be consistent with the application information. I agree to verification by the utility or its representatives of both sales transactions and equipment installation.

I certify that the information on this application is true and correct.

I agree that if: (1) I do not install the related product(s) identified in my application, or (2) I remove the related product(s) identified in my application before a period of five years or the end of the product life, whichever is less, then I shall refund a prorated amount of incentive funds to PSE&G based on the actual period of time in which the related product(s) were installed and operating (or the full amount if the product was never installed). Any measure that I have installed in my facility must provide 100% of the energy benefits as stated in this application for a period of five years, or for the life of the product, whichever is less. I understand that this is necessary to assure that the project's related energy benefits will be achieved.

I understand that the program may be modified or terminated without prior notice.

I understand that final applications and all required documentation must be received by the PSE&G Business Energy Saver Program program within 60 days of project completion but no later than September 30, 2021, and that all equipment must be purchased and installed prior to submitting the final application.

I understand that this project must involve a facility improvement that results in improved energy efficiency and/or a permanent reduction in energy usage. I also understand that all materials removed, including lamps and PCB ballasts, must be permanently taken out of service and disposed of in accordance with all laws, including local codes and ordinances. I understand it is my responsibility to be aware of any applicable codes or ordinances, and that information about hazardous waste disposal can be found at: www.epa.gov/hw.

I understand that in no case will PSE&G pay more than 100% of the total costs of the project. I understand that PSE&G or its representatives have the right to ask for additional information at any time, and that PSE&G Business Energy Saver Program will make the final determination of incentive levels for this project.

I understand that my company may be recognized as a program participant in promotional materials; however, project details will not be released to the public without prior consent. If I choose to opt-out of any recognition, I will indicate my choice in a written letter to the PSE&G Business Energy Saver Program team via email to PSE&Genergysaver@dnv.com.

I understand that PSE&G does not guarantee the energy savings and does not make any warranties associated with the measures eligible for incentives under this program, and further, that PSE&G has no obligations regarding and does not endorse or guarantee any claims, promises, work, or equipment made, performed, or furnished by any contractors or equipment vendors that sell or install any energy efficiency measures.

I understand that in the event the application was pre-approved and funds were reserved based upon the application, such pre-approval or reservation, including the specific dollar amount of reservation, did not represent a guarantee that such funds will be paid. Payment of incentives is based upon the final application and program Policies and Procedures, as well as the availability of funds. I have read and accept the PSE&G Business Energy Saver Program Policies and Procedures as they appear in this application.

I have read, understood and am in compliance with all rules and regulations concerning this incentive program. I certify that all information provided is correct to the best of my knowledge, and I give PSE&G permission to share my records with the New Jersey BPU, and agents, representatives and contractors it selects to manage, coordinate or evaluate the program. Additionally, I hereby authorize PSE&G to have reasonable access to my property to inspect the installation and performance of the equipment and installations that are eligible for incentives under the guidelines of the program.

CONFIDENTIALITY

PSE&G shall treat as confidential all personal information of Customer and all information furnished by the Customer as part of Customer's participation in the Program and all data or information derived therefrom ("Confidential Information"). Confidential Information shall not include; (i) information that was already in the possession of a Permitted Recipient (as defined below) at the time of its disclosure; (ii) information that becomes public after disclosure through no fault of a Permitted Recipient; (iii) information that is obtained from a third party that had an unrestricted right to disclose it; (iv) information that is required to be disclosed pursuant to a court order or an applicable law or regulation and (v) information that is independently developed by a Permitted Recipient. PSE&G may disclose Confidential Information to its employees, contractors, advisors, subcontractors and representatives who have a need to know such information for purposes of the Program and to the BPU and other New Jersey Utilities ("Permitted Recipients") but shall not otherwise disclose Confidential Information to any other person or entity without Customer's express authorization. Confidential Information shall not be used for any purpose other than in connection with the Program or to support current or future regulated utility programs authorized by the BPU and provided by PSE&G or one or more of the New Jersey Utilities. PSE&G may disclose Confidential Information as may be required by law or court order provided that, unless otherwise prohibited by law, the Customer has been given a reasonable time to take legal action to seek appropriate protection of its Confidential Information. The Customer expressly understands and agrees that PSE&G is required to report to New Jersey regulators on a periodic basis Program data ("Regulatory Reporting") as well as to prepare and submit to New Jersey regulators a Program Evaluation Report. Nothing contained herein shall prohibit PSE&G from disclosing aggregated data, whether or not such aggregated data was derived in whole or in part from Confidential Information.

Lighting Controls Incentive Estimate

HVAC

Final Incentives for prescriptive projects including measures such as HVAC require that 100% of the building systems, as described in the mechanical project scope documents, are operating.

Eligibility will be verified during an inspection, at which time either of the following two conditions are confirmed:

- 1.) The equipment listed in the mechanical project scope documents is installed and operating in a manner consistent with an occupied space
- 2.) The equipment listed in the mechanical project scope documents is installed and operating in a manner consistent with an unoccupied space (e.g., HVAC equipment energized and responding to heating and cooling loads).

Equipment will not be eligible if it is installed, but not operating (e.g. heat pumps are installed but turned off). For projects where a subset of equipment is ineligible, the customer has the option to delay project finalization and energy savings calculation until an agreed-upon future date (when more equipment may be operating and eligible). At that time, a follow up inspection will occur to determine final equipment eligibility and incentive amount. If the decision is made to finalize the project as-is, final incentives will be based on an updated lighting worksheet and/or reduced quantity of eligible equipment.

The Program will use the IEER value of the qualifying unit to determine the incentive tier for measures classified as Unitary HVAC/Split Systems & Single Package and Air Cooled >5.4 tons, Air Cooled Heat Pumps, Split System & Single Package >5.4 tons.

NOTE - If your equipment is rated in BTU, please use the following equation to determine tons for input into these tables:
 $XX \text{ BTU} / 12,000 = \text{Tons}$

PTHP & PTAC Qualifications

For your PTHP or PTAC application to be accepted it must have the qualifying efficiency listed below.

Capacity	PTAC/PTHP - EER Min	PTHP - COP Min
≥ 5,000, < 7,000 Btu	12.875	3.48964
≥ 7,000, < 8,000 Btu	12.1025	3.4093
≥ 8,000, < 9,000 Btu	11.7935	3.35574
≥ 9,000, < 10,000 Btu	11.4845	3.30218
≥ 10,000, < 11,000 Btu	11.1755	3.24862
≥ 11,000, < 12,000 Btu	10.8665	3.19506
≥ 12,000, < 13,000 Btu	10.5575	3.1415
≥ 13,000, < 14,000 Btu	10.2485	3.08794
≥ 14,000, < 15,000 Btu	9.9395	3.03438
≥ 15,000 Btu	9.785	3.0076

Variable Frequency Drives

Choose what application that VFD will be supplied for: Supply Fan, Return Fan, Chilled Water or Condenser Water Pump, Heating Hot Water Pump, Water Source Heat Pump, Cooling Fan Tower, or Boiler Feedwater Pump.

Application Type	HP	Quantity	Incentive Drive	Incentive Estimate
------------------	----	----------	-----------------	--------------------

Variable Frequency Drives ≤ 100 HP

	≤2 HP		\$500	
	3 HP		\$600	
	4 HP		\$700	
	5 HP		\$800	
	7.5 HP		\$900	
	10 HP		\$1,100	
	15 HP		\$1,350	
	20 HP		\$1,500	
	25 HP		\$1,600	
	30 HP		\$1,800	
	40 HP		\$2,000	
	50 HP		\$2,500	
	60 HP		\$3,000	
	75 HP		\$3,750	
	100 HP		\$5,000	

Variable Frequency Drives - 101 HP to 200 HP

Ref #	Measure Name	HP	Quantity	Incentive HP	Incentive Estimate
H-E-1144	Supply Fan VFD - 101 HP to 200 HP			\$40	
H-E-1160	Return Fan VFD - 101 HP to 200 HP			\$40	
H-E-1176	Chilled Water or Condenser Water Pump VFD - 101 HP to 200 HP			\$40	
H-E-1192	Heating Hot Water Pump VFD - 101 HP to 200 HP			\$40	
H-E-1208	Water Source Heat Pump VFD - 101 HP to 200 HP			\$40	
H-E-1224	Cooling Tower Fan VFD - 101 HP to 200 HP			\$40	
H-E-1240	Boiler Feedwater Pump VFD - 101 HP to 200 HP			\$40	
VFD Incentives Estimate					

Custom

Please use the reference numbers in the left column to identify and mark all related invoices, specification sheets and other documents related to that measure and submitted with this application. Please include the following documentation with your submission: energy savings derivation/calculation sheet, description on how the savings are derived, and an existing condition and post condition description of the measure.

A reservation letter must be received before the project begins. You must check the appropriate category box for each custom item on this worksheet. Custom project incentives are capped at 50% of total project cost.
