

Solutions for New Construction

APS Solutions for Business supports the construction of highly efficient buildings with rebates and technical assistance.

Discover the solutions that make saving money on your new construction projects simple. There are two participation paths: Path 1 offers Standard and Custom rebates for individual equipment. Technical Design Assistance rebates are also available to help offset the cost of designing an energy-efficient facility. Path 2 utilizes a whole-building approach during both modeling and post-construction phases. The APS Solutions for Business team will help you choose which path is best for your project.

PATH 1

Standard Rebates

- HVAC equipment including chillers, package units and ductless mini-splits
- Lighting power density (LPD)
- High-performance windows and glass doors
- Variable speed drives (VSDs) when not required by code

Custom Rebates

- Includes measures not covered by Standard rebates
- Excludes discontinued rebates
- Must pass a Societal Cost Test
- Rebate calculations are based on annual kWh saved and summer on-peak kWh saved

Technical Design Assistance Rebates

- Rebate is paid at 50% of the energy modeling cost with a cap of \$10,000 per building

PATH 2

Whole Building Rebates

- Requires ASHRAE 90.1-2013 baseline modeling as well as final modeling
- Consists of two rebates: modeling and post-construction

TIME-SAVING WAYS TO MANAGE YOUR ACCOUNT

My Account

- Access your account 24/7 at aps.com/myaccount
- Review, download and compare your usage
- View billing history and make payments

Billing & Payment Options

- Never miss a payment with AutoPay
- Have a more predictable bill with Budget Billing
- Manage your cash flow with Preferred Due Date
- Reduce clutter with Paperless billing and support your sustainability goals

Alerts & Notifications

- Sign up for text or email alerts at aps.com/alerts
- Get a notification when there is an outage in your area
- Set a bill amount or usage threshold and be notified when you've reached it

Mobile App

- Pay your bill on the go
- Monitor your usage
- View and report outages
- Easy access to all your accounts

Visit aps.com/business
for all your energy needs.

With so many options, every business has the opportunity to save energy and money.

LIGHTING	
Lighting power density	\$0.35/watt reduced

HVAC EQUIPMENT		
Equipment	Rebate	Bonus efficiency/ton
Water-cooled chiller — 299 tons or less	\$5.25/ton	See application
Water-cooled chiller — 300 tons or more	\$7.50/ton	
Air-cooled chiller — 149 tons or less	\$5.25/ton	
Air-cooled chiller — 150 tons or more	\$7.50/ton	
PTAC & PTHP	\$24/ton	\$10/ton
Ductless mini split	\$10/kBtu/h	N/A
HVAC EC fan motor	\$300/hp	N/A
HVAC quality install — phase 1	\$180/ton	N/A
HVAC quality install — phase 2 — duct seal	\$225/ton	\$15/ton
Computer Room Air Conditioner (CRAC)	\$45/kBtu/h	N/A
Ultrasonic humidification	\$450/kW	N/A

STANDARD HVAC PACKAGED/ SPLIT AC & HP		
Size	CEE tier	Rebate
Unitary air conditioner <760 kBtu/h	Tier 1	\$2/kBtu/h
	Tier 2	\$3/kBtu/h
	Advanced tier	\$4/kBtu/h
Unitary heat pump <760 kBtu/h	Tier 1	\$2/kBtu/h
	Tier 2	\$3/kBtu/h
Units ≥760 kBtu/h	Custom rebate	

BUILDING ENVELOPE	
Shade screen	\$2/sq ft
High-performance window & glass door	\$0.50/sq ft

VARIABLE SPEED DRIVES	
Chiller compressor	\$35/hp
Process motor	\$35/hp
Air compressor	\$70/hp
Refrigeration compressor	\$50/hp
Other	\$50/hp

COMPRESSED AIR	
Additional receiver	\$20/hp
Zero loss condensate drain	\$230/drain

TECHNICAL ASSISTANCE*	
New construction energy modeling	50% of cost, up to \$10,000

CUSTOM MEASURES*	
\$0.02/kWh annual savings, plus \$0.18/kWh for Summer peak hours (June-September, weekdays, 3 p.m.-8 p.m.), up to 75% of the cost	

ENERGY INFORMATION SERVICES	
100% of setup costs, up to \$12,000	

OR PATH 2

WHOLE BUILDING*	
\$0.02/kWh annual savings, plus \$0.18/kWh for Summer peak hours (June-September, weekdays, 3 p.m.-8 p.m.), up to 75% of the cost	

*Requires a Pre-Application

Applying for Rebates is Easy:

The Online Application allows you to create and manage your rebate applications. Get started today by visiting apsapplynow.com.

1. Confirm Eligibility

In order to receive a rebate, projects must be installed at a facility served by APS and installed equipment must meet or exceed the specifications detailed in the current specifications sheets found within the Online Application.

2. Complete Your Online Profile

Before starting your first application, complete your online profile. Once completed, this data will automatically be included in all applications.

3. Submit Pre-Application (If Required)

Submitting a Pre-Application gives APS the opportunity to review a project and confirm that it qualifies for a rebate. Once you receive confirmation from the APS team that your application has been reviewed, you may proceed with the equipment installation.

4. Submit Your Final Application

Upon completion of the work, submit your final application detailing the equipment installed. Once the project is approved, a rebate check will be mailed to the recipient designated on the application.

Please visit apsapplynow.com or call (866) 277-5605 to get started today.
